

# EVANDER EXT 5

This is a residential development project located on 21 Hectares in Evander Extension 5 a smaller town located about 10KM North West of Secunda popularly known for housing one of the petroleum refuelling in Africa called Sasol 1, 2, 3, and 4. The project is planned for approximately 600 residential units made up as follows;

- 200 Medium income free standing units.
- 120 Highrise rental stock.
- 100 Highrise sectional title units.

This project is already progressing as the professional team has been appointed in June 2017. Due to the size of the project, this project will be done on the phase approach and phase 1 start selling by February 2018.
